

# High Availability Computing 2003

---

**1****Executive Overview**

---

**2****Market Drivers & Industry Dynamics**

---

**3****Market Segments & Product Requirements**

---

**4****Market Forecast & Market Shares**

---

**5****Emerging Technologies & Standards**

---

**6****Competitive Products & Positioning**

---

**7****Suppliers Profiles & Strategies**

---

**8****Channels of Distribution**

---

**9****Research Methodology**

---

**10****Appendices & Resources**

# Executive Summary

<b>High Availability Industry Drivers .....</b>	<b>3</b>
The rise of the Internet - 24x7 requirements .....	3
Convergence - Telecom and Datacomm Industries.....	3
Explosion in eCommerce & Implications.....	4
Major Causes of Downtime .....	4
Managing Risk of Downtime .....	4
Market Opportunities by Market Segment.....	5
<b>Achieving High Availability .....</b>	<b>6</b>
Achieving High Availability - Local, Remote .....	6
Vendors' Price/Availability Positioning to Achieve High Availability .....	7
<b>High Availability Market - Overview.....</b>	<b>8</b>
Demand for High Availability Computing & Telecom .....	8
High Availability Market Segments .....	8
High Availability Server Market .....	9
WW High Availability Servers Market Forecast 2002-06 .....	11
HA Server Revenues by OS 2002-06 .....	12
HA Server Shipments by OS 2002-06 .....	12
<b>HA Telecom Market 2002-2006.....</b>	<b>13</b>
HA Telecom Equipments Market 2002-2006 .....	13
HA Telecom Software Market 2002-2006 .....	13
HA Telecom Services Market 2002-2006 .....	13
<b>High Availability Levels HAL 2-5.....</b>	<b>13</b>
Market Forecast by HA Levels 2002-06.....	14
<b>High Availability Industry Structure .....</b>	<b>15</b>
<b>High Availability End-to-End Internet.....</b>	<b>16</b>
Carrier grade "web-tone and data-tone" .....	18
<b>Clustering - a new paradigm in computing and communications .....</b>	<b>19</b>
The fall of expensive proprietary solutions.....	19
<b>High Availability in Data Centers .....</b>	<b>20</b>
<b>HA Equipment - Servers, Storage &amp; Networking .....</b>	<b>20</b>
<b>HA Software - System SW, Utilities, Application SW.....</b>	<b>21</b>
<b>HA Databases Requirements .....</b>	<b>21</b>
<b>High Availability in Telecom.....</b>	<b>22</b>
<b>Telecom Equipment Market - Total &amp; HA.....</b>	<b>22</b>
<b>HA Telecom Equipment Market Revenues 2002-2006 .....</b>	<b>22</b>
<b>HA Telecom Equipment Market Drivers.....</b>	<b>22</b>

<b>Major HA Suppliers .....</b>	<b>23</b>
HA Computing Suppliers.....	24
HA Telecom Suppliers .....	25
HA Convergence Markets - Major Players & New Suppliers.....	26
HA Suppliers - Tiers 0,1,2 and 3 .....	26
<b>Target Markets for HA Equipment Vendors .....</b>	<b>27</b>
Opportunities for IT Equipment Manufacturers .....	27
Opportunities for Telecom Equipment Manufacturers.....	29
<b>Channels of Distribution .....</b>	<b>30</b>
Value Added Chain.....	30
<b>Targeting Top Vendors.....</b>	<b>31</b>
OEMs.....	31
HA System Integrators/Consultants.....	31
HA VARS/Distributors.....	31

Section

# 2

## Market Trends & Drivers

<b>Factors driving High Availability.....</b>	<b>4</b>
Online Internet.....	4
Mission Critical Requirements.....	4
Market Trends.....	5
UNIX vs. NT .....	6
<b>Identifying High Availability Applications .....</b>	<b>8</b>
Classifying Your Application's Criticality of Availability .....	8
Basic Productivity Applications .....	8
Core Business Applications .....	8
Customer Connection Applications .....	8
<b>Impact &amp; Cost of Downtime .....</b>	<b>9</b>
Business Impact/Consequences of Outage .....	9
Impact of Computer Downtime .....	10
Loss per occurrence by company by industry .....	10
Cost of Network Downtime - Amount of Loss/incidence & No. of companies....	11
ROI decisions .....	11
<b>Defining High Availability Goals .....</b>	<b>11</b>
Separating the Mission-Critical .....	12
Calculating the Real Costs of Downtime .....	13
Retailing.....	13
Airlines .....	13
Brokerages .....	13
Medical .....	13
eCommerce .....	14

ePublishing .....	14
ERP .....	14
Technologies to protect against Murphy's Law .....	14
<b>Calculate and Recalculate - Your Point of Diminishing Returns .....</b>	<b>16</b>
<b>Measuring High Availability - Precisely.....</b>	<b>16</b>
<b>Financial Impact of Downtime .....</b>	<b>17</b>
Cost of Downtime in Fortune1000 Cos. - 1998 survey .....	17
<b>Acceptable Levels of Downtime by Application.....</b>	<b>18</b>
<b>Acceptable Failover Time by Applications .....</b>	<b>18</b>
<b>Achieving High Availability .....</b>	<b>20</b>
High Availability - Databases .....	20
High Availability Networks .....	20
<b>Future of Networking .....</b>	<b>21</b>
<b>Convergence - Telecomm and Datacommunications Industries .....</b>	<b>21</b>
<b>Convergence Market Trends by year 2003 .....</b>	<b>21</b>
IP everything - the new communications platform .....	22
Bandwidth.....	23
<b>Clustering.....</b>	<b>24</b>
<b>Definition.....</b>	<b>24</b>
<b>Configuration types .....</b>	<b>24</b>
Active/active: .....	24
Active/standby: .....	25
Fault tolerant:.....	25
<b>NT Clustering Solutions.....</b>	<b>25</b>
<b>Impact of Microsoft Clustering Solutions .....</b>	<b>25</b>
<b>Factors driving High Availability.....</b>	<b>27</b>
<b>Ranking HA systems.....</b>	<b>28</b>
Enabling software .....	30
Cost justification.....	31
<b>Continuous availability formula.....</b>	<b>33</b>
When disaster strikes .....	33
Cost of ownership.....	34
Fitting a specific solution.....	34
<b>High Availability Market Segmentation &amp; Opportunity Map.....</b>	<b>36</b>
Networking software market targets "carrier class" high availability .....	36
<b>Market Trends .....</b>	<b>36</b>
Criteria for Evaluating an Operating System.....	36
Software Application Availability .....	36
Total Cost of Ownership.....	37
Planning:.....	37

Acquisition: .....	37
Implementation and Operation: .....	38
Environment Availability.....	38
<b>Critical Uses Demand Higher Levels of Availability Than Ever Before .....</b>	<b>38</b>
Financial .....	38
Internet Services.....	38
Telecommunications.....	39
Manufacturing Enterprise Resource Planning .....	39
Media.....	39
Services.....	39
Electronic Commerce .....	39
<b>IT Processes.....</b>	<b>39</b>
Windows NT Server.....	41
NT Server Expected to Mature to Support Mission-Critical Applications .....	42
<b>The Emergence of a Mixed Environment.....</b>	<b>42</b>
<b>Market Trends .....</b>	<b>43</b>
NT Server Expected to Mature to Support Mission-Critical Applications .....	43
<b>Rack Servers &amp; Blade Servers.....</b>	<b>44</b>
<b>Market Segmentation &amp; Demand - Blade Servers .....</b>	<b>44</b>
Types of Blade Servers .....	46
Suppliers - Blade Servers.....	46
Summary.....	46
<b>Achieving High Availability .....</b>	<b>47</b>
What Level of Availability Achievable in Win2K Environment? .....	48
Technology Infrastructure Required .....	49
<b>Availability Continuum.....</b>	<b>50</b>
IT Processes.....	56
How high is high enough? .....	58
Level One: standalone servers and storage.....	59
Level Two: RDBMS & RAID .....	59
Level Three: availability clusters.....	60
Level Four: scalability clusters.....	61
Level Five: geographically dispersed clusters .....	61
<b>Improving Uptime .....</b>	<b>62</b>
<b>Software.....</b>	<b>63</b>
System SW - OS, Utilities, Data Management.....	64
Application SW .....	66
DB SW.....	67
<b>Hardware.....</b>	<b>68</b>
ECC Memory .....	68
SMART-2 Array Controller Technology .....	68
Redundant Network Interface Card (NIC).....	68
Uninterruptable power supply .....	68
Data Manager .....	69
Standby Recovery Server.....	69
On-Line Recovery Server .....	69

Rapid Recovery-	69
Redundant Power Supply-	70
Off-Line Backup Processor-	70
Redundant Processor Power Modules-	70
External Storage-	70

# Market Requirements

<b>Market Requirements for High Availability .....</b>	<b>4</b>
Components of Availability.....	4
HA Availability Computing Levels.....	4
<b>HA Market Segmentation by HA Product Levels .....</b>	<b>5</b>
Factors driving High Availability .....	5
Online Internet .....	5
Mission Critical Requirements.....	5
Achieving Cost Effective High Availability .....	6
Database Applications - Failover.....	6
Issues .....	6
Solution.....	6
<b>Acceptable Failover Time by Applications .....</b>	<b>7</b>
Acceptable Downtime in Enterprises.....	8
High Availability - Price/System availability Tradeoffs.....	10
<b>Keys to achieving High Availability .....</b>	<b>11</b>
<b>HA Challenges .....</b>	<b>12</b>
E-Business and Business High Volume Model.....	12
HA Challenges for Key Technologies .....	12
Bulletproofing the Back Office .....	13
<b>Hardware Solutions for HA Servers.....</b>	<b>13</b>
Backend & Infrastructure High Volume Servers .....	13
Intel 8, 4 & 2-Way Servers .....	13
4-Way .....	13
2-Way .....	14
<b>Server Management .....</b>	<b>14</b>
Server Management SW .....	14
Affordable Front End Servers .....	14
High Availability Storage.....	14
<b>Software Solutions for High Availability .....</b>	<b>15</b>
HA Software .....	15

<b>MSCS SW for Messaging Servers .....</b>	<b>15</b>
WLBS SW for Web Servers .....	15
Other Fail-Safe Software .....	16
Maximizing Data Access .....	16
High Availability and Fault-Resilient Intel Architecture based volume Servers .	16
<b>Product Requirements .....</b>	<b>17</b>
Architecture .....	17
Uptime .....	17
Fast recovery of application.....	17
Multiple Failure Robustness .....	17
Load Balancing .....	17
Concurrent Maintenance .....	17
Online Configurability.....	17
Manageability .....	18
Scalability .....	18
<b>Telecom High Availability Requirements .....</b>	<b>18</b>
<b>Telecom High Availability System Requirements.....</b>	<b>18</b>
<b>Telecom High Availability Failure Recovery Requirements.....</b>	<b>18</b>
<b>Database Availability Requirements.....</b>	<b>18</b>
<b>Databases - HA Requirements.....</b>	<b>18</b>
<b>Database App Fail-over .....</b>	<b>19</b>
<b>Oracle Standby Database.....</b>	<b>20</b>
<b>Database Recovery .....</b>	<b>20</b>
<b>Failover Performance .....</b>	<b>20</b>
<b>High Availability Requirements - Internet Data Centers .....</b>	<b>20</b>
<b>High Availability Solutions.....</b>	<b>20</b>
<b>High Availability Storage.....</b>	<b>21</b>
<b>Local Load Balancing .....</b>	<b>21</b>
<b>Distributed Load Balancing .....</b>	<b>21</b>
<b>Database Clustering .....</b>	<b>22</b>
<b>Market Dynamics .....</b>	<b>22</b>
<b>Market evolution of PC Clustering .....</b>	<b>22</b>
<b>Clustering .....</b>	<b>23</b>
<b>Price/Performance - NT vs UNIX cluters .....</b>	<b>23</b>
<b>Why Win2000 will succeed.....</b>	<b>24</b>
Developers follow the money.....	24
Key to the success of any computing platform is the number of applications available. In the hey days of PC computing, the Charlie Chaplin ads were simply to demonstrate the plethora of applications available for use on the PC to assure its viability as a serious computing platform.....	24
Intel's Technology Roadmap .....	24
<b>Microsoft HA Thrust &amp; Positioning.....</b>	<b>25</b>
<b>Taking Aim at the SMP Server Market Sweet Spot .....</b>	<b>25</b>
<b>Server Economics - Microsoft's Real Win2000 Strategy.....</b>	<b>27</b>

Win2000 Advanced Server Attacking the Midrange .....	28
Server Scalability for Performance .....	28
8-Way and Greater Systems.....	30
Windows 2003 Servers Market & Technology Trends.....	31
High-Availability Clusters.....	31
Price/Performance - Clustered vs. Non-clustered servers.....	32
Shadow Servers .....	32
Performance Clusters.....	32
Competitive Positioning - Servers.....	33
<b>Microsoft's High Availability Rollouts.....</b>	<b>33</b>
Product Suites .....	33
Mail and Messaging Solutions .....	33
Relational Databases.....	33
Enterprise Resource Planning .....	33
Enterprise Systems Management.....	33
MSCS Management .....	33
Storage Management .....	34
Microsoft Windows Load balancing Server.....	34
Other Applications, Tools, and Utilities .....	34
<b>Microsoft rethinks clustering strategy .....</b>	<b>35</b>
App Center to Provide High-Availability Web Applications Built on Windows 2000.....	35
Linear Scalability.....	36
<b>NT Clustering - Enhancement Waves .....</b>	<b>36</b>
<b>Linux HA Clustering - Ripe for Adoption? .....</b>	<b>37</b>
Mass Adoption of Linux in Top 500 HPC by Academia and Labs.....	37
SCO (& Microsoft) spoiling the Free Linux.....	39
<b>Summary Observations .....</b>	<b>39</b>

## Market Forecast - Overview

<b>WW IT Spending by Equipments and Services .....</b>	<b>3</b>
<b>WW Server Market 2002-06.....</b>	<b>4</b>
Worldwide Server Market Forecast - Revenues by OS 2002-06 .....	4
WW Servers Market Size - Factory Revenues by Price Groups .....	6
WW Servers Market Shares by Price Groups.....	6
HA Servers Market Opportunity Sizing by Price Groups .....	6
<b>WW Server Market Shares 2002 .....</b>	<b>9</b>
WW High End Servers Market Shares 2002.....	9
<b>High Availability Servers - Market Forecast by OS 2002-06 .....</b>	<b>11</b>

High Availability Servers Market - Revenues & Shipments by OS .....	11
HA Servers Mkt Opportunity - Cum Rev vs. Annual Growth 2002-06 .....	12
HA Open Servers Market - Windows, Linux & UNIX Systems .....	13
<b>HA Servers Market Forecast by HA Levels 2002-06 .....</b>	<b>14</b>
<b>Market Shares - HA Servers 2002 .....</b>	<b>18</b>
Market shares - High Availability UNIX & NT Servers.....	18
Market shares - High Availability Proprietary Servers .....	18
<b>HA Cluster Servers Market 2002-06 .....</b>	<b>19</b>
High Availability Clustering Equipments Market Segments .....	19
High Availability Cluster Servers Revenues 1999-2003 by OS .....	19
<b>HA Clustering Infrastructure Market.....</b>	<b>21</b>
HA Clustering Interconnect Market - Rev \$M .....	21
High Availability Interconnects Boards (PCI Based) - Rev \$M.....	21
High Availability Interconnect Switches - Rev \$M .....	21
<b>HA Software Market 2002-06 .....</b>	<b>21</b>
HA Clustering SW Market.....	21
HA Software Market By OS .....	22
HA SW Market by Environment .....	22
HW SW Market Shares .....	22
<b>HA Storage Subsystems 2002-06.....</b>	<b>23</b>
WW Storage Subsystems - GB/Server (by Platform).....	23
WW Storage Subsystems Rev - % of Server Revenues (by Platform) .....	23
<b>HA Storage Market by Environment &amp; Applications .....</b>	<b>23</b>
HA Storage on Internet .....	23
HA Storage on Intranet .....	23
HA Storage on Extranet .....	23
<b>Application Servers Market .....</b>	<b>24</b>
1999 Application Servers Market Shares .....	24
Database .....	24
Compute .....	24
File/Print .....	24
Media and Web Servers .....	24
Email.....	25
Other.....	25
Servers ASP Erosion by Application .....	25
<b>Telecom Equipment Market.....</b>	<b>26</b>
Total Converged Telecom Equipment Market Revenues .....	26
<b>High Availability Telecom Equipment Market.....</b>	<b>27</b>
High Availability Telecom Equipment Market Revenues 1999-2003 .....	27
High Availability Telecom Equipment Market Unit Shipments1999-2003 .....	27

Market Shares - Data/Telecom Equipment Markets .....	28
Market Opportunity Sizing - HA Data/Telecom Equipment Market .....	28
High Availability Internet Access & Backbone Telecom Equipment Suppliers ..	29

# Emerging Technologies

<b>High Availability - the next competitive frontier .....</b>	<b>3</b>
<b>Scaled Performance.....</b>	<b>4</b>
<b>Fault Tolerance.....</b>	<b>4</b>
Cost effective cluster servers challenge expensive enterprise computers .....	4
<b>Database Requirements for Clustered Servers.....</b>	<b>5</b>
<b>VIA - an open standard for Clustering .....</b>	<b>5</b>
From Cluster to SAN.....	6
<b>High Availability Levels .....</b>	<b>7</b>
<b>Failover Types .....</b>	<b>8</b>
<b>High Availability Technologies .....</b>	<b>8</b>
<b>High availability.....</b>	<b>8</b>
<b>Reliability and availability .....</b>	<b>9</b>
<b>Faults and their manifestations .....</b>	<b>9</b>
<b>Failure stages.....</b>	<b>9</b>
<b>Failure response strategies .....</b>	<b>9</b>
<b>Architectural strategies .....</b>	10
<b>Hardware approaches.....</b>	10
<b>Software approaches.....</b>	10
<b>Transparency.....</b>	11
<b>Trade-offs and considerations.....</b>	11
<b>The Open Standards Revolution .....</b>	11
<b>High Availability Makes It Possible .....</b>	11
Hot Plug .....	12
<b>High Availability Component Standards.....</b>	<b>13</b>
New Computer telephony specifications .....	13
<b>CompactPCI as a Telecom Platform.....</b>	<b>13</b>
Hot Swap .....	13
Rugged Hardware.....	14
<b>Achieving High Availability .....</b>	<b>15</b>
<b>High availability.....</b>	<b>15</b>
<b>Reliability and availability. ....</b>	<b>16</b>
<b>Faults and their manifestations. ....</b>	<b>16</b>
<b>Failure Mechanisms.....</b>	<b>16</b>
<b>Failure Response Strategies.....</b>	<b>17</b>
Offline Failure Repair.....	17

Online Failure Repair .....	17
<b>EA vs HA vs CA .....</b>	<b>17</b>
<b>Achieving High Availability .....</b>	<b>17</b>
Business Services .....	17
Architectural Designs .....	17
High Availability Hardware approaches.....	18
Storage.....	18
RAID Overview .....	18
The need for RAID today .....	19
RAID elements .....	19
<b>Network Integrity.....</b>	<b>19</b>
Network Performance Analysis.....	20
Network Software And Hardware Reliability .....	20
Network Reliability Measurement .....	20
Network Maintainability.....	20
Network Security and Fraud .....	20
<b>Concurrent Maintenance .....</b>	<b>21</b>
Hot Swap .....	21
<b>Software approaches.....</b>	<b>21</b>
<b>Transparency.....</b>	<b>21</b>
<b>Trade-offs and considerations.....</b>	<b>22</b>
<b>Centralization of System Management .....</b>	<b>22</b>
<b>Clustering.....</b>	<b>22</b>
<b>Clustering Definitions.....</b>	<b>22</b>
<b>Clustering Market Drivers and Inhibitors.....</b>	<b>24</b>
Clustering Drivers .....	24
Clustering Inhibitors .....	24
<b>Clustering Technologies.....</b>	<b>24</b>
<b>Interconnect Technologies .....</b>	<b>24</b>
Available Solutions .....	24
Drivers for Clustering .....	25

## **Competitive Positioning**

---

<b>Targeting High Availability .....</b>	<b>3</b>
The Five Pillars of High Availability Framework .....	3
<b>Market Segmentation .....</b>	<b>5</b>
Industry Standards & Metrics .....	5
Open System and Proprietary Servers .....	5

<b>Cluster Systems .....</b>	<b>6</b>
<b>High Availability Cluster Servers.....</b>	<b>6</b>
<b>Enterprise Servers &amp; Storage .....</b>	<b>7</b>
<b>Enterprise Hardware Vendors.....</b>	<b>8</b>
<b>Enterprise Software Vendors.....</b>	<b>10</b>
<b>HA Market Opportunity .....</b>	<b>13</b>
Market Segmentation by Price/Performance & Environment .....	13
<b>HA Market by Server Characteristics .....</b>	<b>14</b>
WW HA Server Market Opportunity .....	14
WW Thin Servers - EU Revenues \$M (by Platform) .....	14
WW Thin Servers - Unit Shipments #K (by Platform) .....	14
WW Thin Servers - ASP \$K (by Platform) .....	15
WW Storage Subsystems - GB/Server (by Platform).....	15
WW Storage Subsystems Rev - % of Server Revenues (by Platform) .....	15
WW Storage Systems by Applications.....	16
WW Entry Servers Shipments by Environment - Units #K.....	17
WW Entry Servers Revenues by Environment \$M (End User) .....	17
WW Entry Servers Shipments by Environment - ASP \$ (End User).....	18
<b>High Availability Competitors &amp; Positioning .....</b>	<b>20</b>
<b>HA Servers by Manufacturer, Platform &amp; OS .....</b>	<b>20</b>
<b>HA Storage Subsystems and Vendors.....</b>	<b>21</b>
<b>HA Software Vendors &amp; Products .....</b>	<b>22</b>
<b>HA NT Clustering Solutions .....</b>	<b>22</b>
Clustering Products' Feature Comparison .....	22
<b>HA Clustering Interconnect Vendors &amp; Products .....</b>	<b>23</b>
<b>Major Product Comparisons .....</b>	<b>24</b>
<b>HA Software - Review Criteria.....</b>	<b>24</b>
<b>HA Software - Competitor Matrix.....</b>	<b>25</b>
<b>HA Servers - Review Criteria.....</b>	<b>26</b>
Performance And Beyond.....	26
The Next Enterprise Server .....	27
Clustering: To Do Or Not To Do.....	27
<b>HA Servers - Competitor Matrix.....</b>	<b>28</b>
HP Proliant 6500.....	29
Dell PowerEdge 6350 .....	30
Hitachi VisionBase 8460 .....	31
IBM eServer iSeries.....	32
HP Intelligent Cluster Administrator .....	36

Section

## Go-to-Market: Disty Channels

<b>High Availability Industry Structure .....</b>	<b>4</b>
<b>High Availability Value-Added Chain - Overview .....</b>	<b>5</b>
Manufacturers.....	5
Distribution Channels.....	5
Services Providers.....	5
End Users.....	5

<b>High Availability Equipment Suppliers.....</b>	<b>6</b>
High Availability Server Vendors by Platform & OS .....	6
HA Server OEMs.....	6
<b>Component Manufacturers - HA Telecom.....</b>	<b>7</b>
Compact PCI Board Manufacturers.....	7
<b>High Availability Cluster Systems .....</b>	<b>8</b>
RAID Storage Subsystems and vendors for Cluster Servers .....	8
Cluster Interconnect Vendors & Products.....	9
Cluster SW Providers .....	9
High Availability SW .....	9
High Availability Multipath SW .....	10
Clustered SAN Network Equipment .....	10
FC Switches .....	10
FC Hubs .....	10
Directors .....	10
Software .....	10
FC HBAs.....	11
FC Controllers .....	11
System Integrators.....	11
<b>HA Component Manufacturers.....</b>	<b>12</b>
<b>SOFTWARE.....</b>	<b>12</b>
Clustering & Failover SW.....	12
HA Software Components .....	12
<b>HW .....</b>	<b>12</b>
Fault Tolerant Computers/Boards Manufacturers .....	12
<b>HA Subsystems .....</b>	<b>14</b>
<b>HA Storage OEMs .....</b>	<b>14</b>
Storage (RAID & RAIT).....	14
<b>Data Networking Equipment Manufacturers .....</b>	<b>16</b>
Access Equipment.....	16
Backbone - Edge Switches & Routers .....	16
Backbone - Core.....	16
National Backbone Service Providers.....	17
High Availability Networks .....	17
LAN/WAN Manufacturers .....	17
Private Labelers .....	18
Telecom Equipment Private Labelers offer support and services for all of the leading Telecom manufacturers. Since they sell different telecom equipments from various vendors they could become missionaries and could serve as referrals of high availability solutions from Lucent.....	18
Data Compression Vendors .....	19
Communications Processors Vendors .....	19
<b>Telecom Industry Structure .....</b>	<b>20</b>

<b>HA Telecom Equipment Providers.....</b>	<b>21</b>
Financial Profiles 1996-2000 .....	21
Product Line Mix .....	21
<b>Convergence Equipment Manufacturers .....</b>	<b>22</b>
Computer Telephony .....	24
<b>Channels of Distribution.....</b>	<b>25</b>
<b>Distributors .....</b>	<b>25</b>
HA Systems Distributors - US.....	25
HA Telecom Distributors .....	25
<b>Resellers - Telecom.....</b>	<b>26</b>

## Research Methodology

<b>Methodology .....</b>	<b>2</b>
Primary Data .....	2
Factors Fueling Growth .....	2
Key Findings .....	3
<b>Markets .....</b>	<b>3</b>
Market Segments .....	3
Server Platform by price/performance segments: .....	3
Server and storage subsystems shipments by major OS categories: .....	3
Server and storage subsystems shipments by price categories: .....	3
Server and storage subsystems shipments by Channels of Distribution: .....	3
Server and storage subsystems shipments by File Systems: .....	3
Server and storage subsystems shipments forecast by applications categories (in future) .....	3
Server and storage subsystems worldwide shipments by Geography (future) ..	3
<b>Market Demand Forecast .....</b>	<b>4</b>
Market Demand 2002 .....	4
Near Term Forecast 2004 .....	4
Long-Term Forecast 2003-2006 .....	4

Market Shares.....	4
Geographic Coverage.....	4
<b>IMEX Definitions &amp; Terminology .....</b>	<b>5</b>
Definitions.....	5
Terminology.....	5
Computer Systems & Servers .....	5
